SUPERINTENDENT'S COMMENTS

Mr. Richards discussed the turf field will require replaced very soon. The field was installed in 2007. Turf fields typically have a 10–12-year life span and ours has lasted beyond its expected life. The Athletic Boosters paid to install the current turf field. The Athletic Booster are not able to replace the turf. A replacement decision needs to be reached soon to not disrupt the fall season sports.

It would be wise to consider extending the First Student contract for a couple of years to get us through the building project and current staff shortage issues other districts are experiencing. The district has the potential to secure contract savings the sooner action is taken.

Warren County is piloting a COVID-19 program and results should be available soon. We may need to consider implementing a similar policy once the data has been analyzed. The results may be published before the November board meeting.
